

## Statement on "SVHC" under REACH

Dear Sir or Madam,

It is our intention to assist you to meet the information obligations set by Article 33 of Regulation (EC) No 1907/2006 (REACH). These obligations apply to suppliers of articles that contain above 0.1 % weight by weight of a substance which is on the Candidate List (so-called "Substance of Very High Concern", SVHC). The current Candidate List is available at [http://echa.europa.eu/chem\\_data/candidate\\_list\\_table\\_en.asp](http://echa.europa.eu/chem_data/candidate_list_table_en.asp).

Please consult the chapter "Composition" in the Safety Data Sheets of our products for information on the presence of substances included on the Candidate List in a concentration above 0.1 % weight by weight.

In case a substance, which has been added newly to the Candidate List, is not already declared due to other reasons in the chapter "Composition" in the Safety Data Sheet, then this chapter will be updated on the condition that the particular substance is present in our product in a concentration above 0.1 % weight by weight. In that case, you will receive the updated Safety Data Sheet on our own accord, provided that you have been supplied by us with the product concerned within the last 12 months.

Yours sincerely,

Bayer MaterialScience AG
