with the requirements of the following EU-Directive:

- Directive 2006/122/EC of the European Parliament and of the Council of 12 December 2006 amending for the 30th time Council Directive 76/769/EEC on the approximation of the laws, regulations and administrative provisions of the Member States

This information and our technical advice - whether verbal, in writing or by way of trials - are given in good faith but without warranty, and this also applies where proprietary rights of third parties are involved. Without any assumption of any liability whatsoever, Bayer MaterialScience AG will strive to keep the following information up-to-date. A notification of eventual updates can and will not be made.

Our advice does not release you from the obligation to verify the information currently provided – especially that contained in our safety data and technical information sheets – and to test our products as to their suitability for the intended processes and uses. The application, use and processing of our products and the products manufactured by you on the basis of our technical advice are beyond our control and, therefore, entirely your own responsibility.

Our products are sold in accordance with the current version of our General Conditions of Sale and Delivery.

Page 2 of 2

relating to restrictions on the marketing and use of certain dangerous substances and preparations (perfluorooctane sulfonates)

Perfluorooctane sulfonates (PFOS) have not been intentionally added for the production of our raw materials related to the product families as defined at the beginning and are not expected to be contained.

Applicable concentration limits for substances and preparations given by afore-mentioned directive, i.e.

PFOS < 0.005 %

are being complied with.

Further we confirm that compounds of perfluorooctanoic acid (PFOA), currently not finally regulated by directive 2006/122/EC, have not been intentionally added for the production of our raw materials related to the product families as defined at the beginning and are not expected to be contained.

Yours sincerely,

Bayer MaterialScience AG
